## The CDHPR/SDA Dutch Malinois Registration Program

**Registration classifications.** The Dutch Malinois registration program will consist of three types of registration classifications. The classifications are the following:

1. Dutch Malinois (Full Breeding Privileges);
2. Dutch Malinois (Limited Breeding Privileges);
3. Mixed Dutch Malinois (Restricted Breeding Privileges).

All classifications can receive litter registration privileges by following the requirements for each category. Registrants who do not follow the requirements will not be eligible for litter registration privileges. Dogs bred outside of the requirements will be subject to the individual registration process for entering the program.

**Criteria to determine status.** The following information will define the criteria a dog must meet for the three different types of classifications:

- 1) **Dutch Malinois - Full Breeding Privilege (FBP)**
  - a) **Eligibility.** Dogs that can prove a three generation pedigree that are descendants of Dutch Malinois or Dutch/Belgian crosses. Dogs of this status must have pedigree information listed
  - b) **Working Requirement.** This classification of dog will not require any working evaluation.
  - c) **Breeding Eligibility - Full.** Dogs of this classification will have litter registration eligibility once their DNA profile is recorded by the CDHPR.
- 2) **Dutch Malinois - Limited Breeding Privilege (LBP)**
  - a) **Eligibility.** Dogs that are descendants of Dutch or Dutch/Belgian Malinois that are direct imports or that have been bred elsewhere that lack three complete generations of pedigree.
  - b) **Working Requirement.** Dogs will require a working requirement presentation scheduled by a personal appointment or by a video presentation.
  - c) **Breeding Eligibility - Limited.**
    - 1) Must be DNA profiled with CDHPR.
    - 2) Dogs of this status will have limited breeding status which requires them to be bred to a Dutch or Belgian Malinois that has three complete generations of pedigree.
    - 3) Limited Breeding Privilege Dutch Malinois's offspring will be required to be bred to a CDHPR registered Dutch Malinois - Full Breeding Privilege. This restriction will continue with the offspring until three generations of pedigree are established.
- 3) **Mixed Dutch Malinois-Restricted Breeding Privilege (RBP)**
  - a) **Eligibility.** Dogs that contain 1/2 or more of Dutch or Belgian Malinois descent. These types of dogs are entering the gene pool to improve health, increase a physical trait or to improve working ability.
  - b) **Working Requirement.** Dogs will be required to prove an acceptable working title and an evaluation by a CDHPR/SDA Breed Warden. Dogs applying for Mixed Dutch Malinois status will have to meet minimum

requirements that are set fourth for this classification. Dogs applying for Mixed Dutch Malinois status will be individually registered and will be subject to a breed evaluation test by a CDHPR/SDA breed warden.

**c) Breeding Eligibility - Restricted.**

- 1) Must be DNA profiled with CDHPR.
- 2) Dogs of this status will have restricted breeding privileges which requires them to be bred to a registered CDHPR Dutch Malinois - Full Breeding Privilege dog.
- 3) Dogs will be required to pass an examination of a CDHPR/SDA Breed Warden before being allowed breeding privileges.
- 4) Restricted Breeding Privilege Dutch Malinois's offspring will be required to be bred to a CDHPR registered Belgian Malinois - Full Breeding Privilege. This restriction will continue with the offspring until three generations of pedigree are established.

### Procedures for Single Registration Application for the SDA Dutch Malinois Program

**Application procedure:**

- 1) Complete the Canine Developmental Health and Performance Registry (CDHPR) "Service Dogs of America (SDA) Single Registration Application" including:
  - a) Three complete generations of pedigree for dogs applying for Dutch Malinois - Full Breeding Privileges (FBP);
  - b) All available pedigree information for three generations for dogs applying for Dutch Malinois - Limited Breeding Privileges (LBP);
  - c) All available pedigree information for three generations for dogs applying for Mixed Dutch Malinois - Restricted Breeding Privileges (RBP), including breed of the first three generations.
- 2) Submit two pictures of the dog, one front view and one side view.
- 3) Submit a check or money order made out to CDHPR.
- 4) Mail all applicable information to Jack Rayl, SDA acting director/breed warden inspector of this program. After reviewing and approving the information, this information will be forwarded to the CDHPR. If all is in order, the CDHPR will issue a registration certificate.

**Dutch Malinois Classifications:**

- 1) The acting director of this program will decide into which classification the dog will enter.
- 2) Dog owners who abide by the guidelines of each classification of this program will be eligible for litter registration privileges.
- 3) Dogs requiring a visual and working evaluation will schedule an appointment or provide a video presentation to CDHPR /SDA Breed Warden. Dog owners will be able to read or purchase a video presentation of the working requirements that are required. This information can be obtained by contacting the SDA Breed Warden/Inspector for this program.
